DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 28 is rejected under 35 U.S.C. 102(b) as being anticipated by Heidenreich, US 1262788.

3. Heidenreich teaches an apparatus comprising a collar 4 adapted to fit on a neck of a beverage decanter, wherein the collar 4 includes a gap 5 capable of receiving a handle of the beverage decanter, and further wherein the collar 4 includes an information display surface adapted to display a strip of paper 13. The apparatus also has a lower lip 8 connected to a lower end of the information display surface and an upper lip 7 connected to an upper end of the information display surface.

Since the claim is not drawn to the combination of the collar and the decanter, Heidenrich anticipates claim 28.

Allowable Subject Matter

Claims 20, 24-27 are allowed.

Response to Arguments

4. Applicant's arguments with respect to claim 28 have been considered but are moot in view of the new ground(s) of rejection.
